EDUCATION

University of Central Florida

Aug. 2019 - May 2023

Computer Science

GPA: 3.9

EMPLOYMENT

Mandolin, *Software Engineering Intern*

June 2022 - Aug. 2022

- Responsible for software maintenance across the codebase throughout the internship.
- Contributed in creating a new page that allows artists and organizations to view their survey results.
- Implemented the initial framework of different human-readable filters that allows users to filter fans based on a given search parameter.

SKILLS

CSS, HTML, Javascript, React, React Native, Git, Github, Typescript

PROJECTS

Yim Todo

- Created a todo app that allows users to create, read, update, delete, and download todo's.
- Used React as the frontend framework as well as TailWindCSS to create the design of the website.
- Utilized Google Firebase to store login and todo information.

Yim Weather

- Created a weather app that allows users to look up weather at their current location and other worldwide locations.
- Used React as the frontend framework as well as TailWindCSS to create the design of the website. Also used OpenWeatherMaps APIs to get current, hourly, and daily weather data.

Student Events

- Collaborated in the creation of a college event application that allows users to create different events for their college and clubs (RSOs).
- Worked mainly on the frontend using React, Semantic UI, and Google Maps API.
- Contributed to the backend, which used PHP and a SQL database.

AWARDS

Dean's List

Fall 2019, Spring 2020

President's List

Fall 2020, Spring 2021, Fall 2021
